

**8K@60Hz**

**USB 3.1 USB-C/M to DP 1.4/M cable 1.8M  
(FL7102 Chipset)**

USB 3.1 USB-C male to DP 1.4 male converter video cable connects a USB-C port-enabled phone/laptop/tablet/desktop to a Displayport-equipped Monitor, TV, or Projector. Mirroring and extension modes allow you to display on a larger screen or work on multiple screens.

## Features

- Supports resolutions and refresh rates up to Ultra HD 8K@60Hz, backward compatible with 4K@60Hz and 2K@240Hz.
- Backward compatible with DisplayPort 1.2.
- High-speed data transmission rate up to 48Gbps.
- USB-C and DP terminals use nickel-plated connectors that meet 5000+ plug and pull tests to ensure stability and durability.
- Plug and play, No driver or software needed. Directly connect your source devices (laptop, tablet, ipad or phone) to your display devices (Monitor or TV) without any other adapter.

**Notice:** 1) This USB-C to DP cable without PD charging function.  
2) One-way transfer, Type-C to DP. NOT support Reverse conversion.
