

Protect the internal components of your desktop by locking the chassis with MicroSaver.

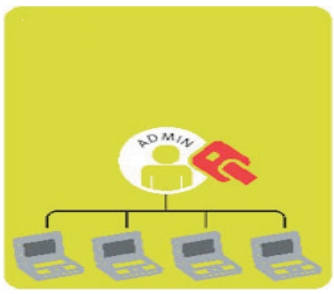

Model number: 64603

## Features

- The MicroSaver prevents unauthorised access to the valuable internal components of the CPU
- Updated industrial design
- Sleek styling and design
- Uses an Augmented lock head that is more resistant to lock picking and bumping
- This Built-in defense system guards against lock tampering
- Patented T-bar lock provides superior locking strength in the security slot and theft protection
- Online key code registration to replace lost keys
- Ships with 2 Master Keys (no user keys)

**SINGLE KEYED**

With single-keyed products you have the highest level of control over equipment since you have the only set of keys. It's the best solution for laboratories and educational institutions where computers can be locked in place and should only be unlocked by the IT manager.
